WHO GMP Certification – (In Progress)

SEC 01 / ABOUT EVIA LABS

Pharma Expertise Behind Every Product

eVia Labs is a B2B nutraceutical company based in Hyderabad, India, with its manufacturing facility located in Nellore, India. With more than 20 years of experience in the pharmaceutical industry, we provide a variety of services like formulation, private labelling, and contract production- delivered at the standard well-established nutraceutical manufacturers are known for.

Our services are beneficial to pharmaceutical and wellness organizations on a global scale. We focus entirely on delivering to our client's requirements.

20+ YEARS OF EXPERIENCE

FSSAI Compliant · WHO GMP Certification – (In Progress)

SEC 02 / OUR SERVICES

One Partner from Formula to Finished Pack

eVia Labs offers a comprehensive range of contract manufacturing services, from initial formulation to the final branded product, catering to wellness companies seeking to launch pharmaceutical-grade nutraceuticals under their own label.

Batch Manufacturing

eVia Labs manufactures capsules, pills, and powders for pharmaceutical standardization, documenting and certifying every batch.

Private Labeling

eVia Labs delivers pharmaceutical-grade nutraceuticals under the client's trademark, ensuring dependable outcomes while the brand focuses on client engagement.

Custom Formulation

eVia Labs' formulation team works with a brand's ingredients, dosage, and positioning to create custom nutraceuticals that meet FSSAI RDA and international pharmaceutical standards.

Packaging & Labelling

eVia Labs offers Containers, Packs, Bottles, Alu-Alu, Blister, Sachets fully labelled and ready to sell.

White Labeling

eVia Labs' branded nutraceutical formulations let wellness brands launch new product lines faster than developing a custom formulation from scratch.

SEC 03 / OUR PRODUCTS

Multiple Formats, One Consistent Standard

eVia Labs delivers essential dosage formats backed by pharmaceutical-grade controls and detailed batch records. B2B brands can select the format that is most suitable for their product line, without compromising process consistency.

01 / TABLETS

Tablets

Tablet production follows set specifications for weight, hardness, and disintegration. We test every batch before clearing it for packaging, so your final order matches your approved sample.

- Conventional tablets
- Chewable tablets
- Different shapes and sizes
- Film-coated tablets
- Effervescent tablets

02 / CAPSULES

Capsules

We produce hard-shell capsules with precise dosage control using pharma-grade ingredients, checking fill accuracy through the full run rather than a single point in the batch.

- Hard gelatin capsules
- Available capsule sizes
- HPMC vegetarian capsules
- Different formulation possibilities

03 / POWDERS

Powders

Our powders are produced in bulk containers or single-serve sachets, with consistent particle size and dosing accuracy across the batch. This format works well for protein blends, greens formulas, and single-dose supplement sachets.

- Nutritional powder blends
- Functional nutritional blends
- Bulk powder packaging
- Protein-based formulations
- Single-serve sachets

04 / PACKAGING SOLUTIONS

Packaging Solutions

Finished products are packed in the format that suits your market and distribution channel.

- Bottles
- Sachets
- Other available packaging formats
- Blister packs
- Jars
